Dear Shareowners,

It has been said that companies that build scale for the benefit of their customers and shareholders more often succeed over time. These are words which have always defined our guiding principles at Focus, and have been in evidence this year too. Financial Year 2015 was a year of hope and aspiration. The new Government at the Centre, under the leadership of our Prime Minister, Shri Narendra Modi, scripted a 10-point agenda for immediate action. Prime among these is the increase in investments particularly in infrastructure and the implementation of policies in a time-bound manner. A lot remains to be done and the consequent effect on the economic environment has to materialize. The macro-economic situation of the country is far better than a couple of years ago. The current account deficit is under control, largely due to lower oil prices and reduced imports. The fiscal deficit has been managed reasonably well with a target of touching the 3% level down the line. Significant steps are being taken to improve the ease of doing business. Inflation is under control; however, one needs to be cautious of the fact that the year witnessed unseasonal rains in many parts of the country. Though the monsoon has arrived well on time, we hope that the overall rainfall is adequate. While India appears to be growing at a healthy rate compared to other emerging markets, it is imperative to substantially accelerate the growth momentum for sustained job creation and eradication of poverty. On the monetary policy front, while the Reserve Bank of India reduced repo rates twice during the last year, the lending rates continue to be elevated. It is hoped that growth will become the primary theme for the Centre as well as the States in the coming years.

FY 2015 in Perspective Amidst a very difficult economic environment, your Company demonstrated a stable performance. The Top Management of your Company has outlined three filters as the strategy for future growth:

- i. Potential to scale up the business
- ii. Competitive advantage or strengths.
- iii. Possibility of sustained and profitable growth Consolidating and strengthening your Company's presence.

We inherit much more than our name. We derive strength, synergies, and most importantly, the priceless asset of trust. Our canvas has expanded, as

we ventured into new fields while simultaneously widening the portfolio of existing businesses.

Our core area is in Finance, Leasing, Hire Purchase and investments. We are doing this by improving our internal processes, strengthening our techniques and investing significantly in terms of training our people. We do believe that the process of strengthening our core area will continue well into the next financial area and perhaps the year after as well.

During the FY 2014-15, your Company's Revenue has increase to Rs. 10,656,901 .00 as compared to Rs. 10,073,015.00 for the FY 2013-14.

Several pillars have been erected in terms of systems, processes, risk controls, people and technology. Many more steps will be taken to reach our long-term goal. Your Company's Management and the entire Executive Team Focus Industrial Resources Limited (FIRL) are committed to building a respectable and lasting entity. I take this opportunity to thank my colleagues on the Board for their valuable contribution. I thank all our employees for nurturing the values we espouse and for their unfettered efforts in the building of this institution. Always remember that each employee, each person involved in this company in any small or large measure, has an ownership over this company. We are what we are because we stand together as a family. This would not have been possible without your support. On behalf of the Board, I present my sincere appreciation and gratitude to our customers, shareholders, bankers and others for their continuous support, confidence and faith they have reposed in the Company.

I thank you for your attention.

Regards,

Sd/-

stipulated by RBI for NBFCs which is making difficult for them to give cheaper finance. Ever-increasing competition from commercial counterparts whose capacity to absorb losses is higher, counter-party failures, recommendations being made to increase the purview of monitoring by regulatory authorities increase the threat of losing the essence of Non-banking Finance Companies which are specifically designed to reach out and finance certain target groups.

FUTURE STRATEGIES

NBFCs have proven their mettle in many other specialized financial services such as factoring, lease finance, venture capital finance, financing road transport and also in the business of securities-based lending such as Loan against Shares, Margin Funding, IPO Financing, Promoter Funding etc. They have also been providing a major boost to Micro, Small and Medium enterprises and other avenues where banks exercise cautious lending. All the above factors further emphasize the potential and opportunities in store for NBFCs and the regulations when designed to provide the right environment, provides impetus to the growth of the sector. The Company hence wishes to diversify its lending activities in the coming period and shall embark on this path and move forward once the existing investments, which are at an incubating stage begin to bear fruits.

RISKS AND CONCERNS

The NBFC industry in general faces the risk of re-entry and new entry of players and existence of several unorganized regional players increasing the competition which mainly affects the asset quality. This is further characterized by captive NBFCs floated by other business houses. The ever existing systemic and delinquency risks and fluctuations in interest rates and risk weight make the companies more vulnerable. Deployment of funds in sensitive and volatile sectors increases the risk exposure while concentration risk increases dependency.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal Control measures and systems are established to ensure the correctness of the transactions and safe guarding of the assets. The Management ensures adherence to all internal control policies and procedures as well as compliance with regulatory guidelines. The audit committee of the Board of Directors reviews the adequacy of internal controls. This has improved the management of the affairs of the Company and strengthened transparency and accountability.

BUSINESS OVERVIEW FINANCIAL PERFORMANCE

Your company is a small sized, BSE and CSE listed, Non Banking Financial Company (NBFC). The Company is continuously in the direction of progressing in its field.

The employee relations have continued to be harmonious throughout the year.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of the applicable laws and regulations. ECONOMIC OUTLOOK

The year 2014 - 15 began with several challenges on the macroeconomic front, including rising inflation, dwindling industrial output and a falling rupee. The Reserve Bank of India (RBI) intervened in July and August to stem the rupee's slide by increasing the marginal standing facility rate and the bank rate by 200 bps each to 10.25%. The result was that frequent issuers such as Non Banking Financial Companies (NBFCs) pulled back from the bond market. In first quarter of 2015, the RBI has cut the repo rate by 50 bps to 7.50% in two tranches as there are signs that inflation is moderating. Overall GDP growth in the fiscal settled at around 7.4%, mostly driven by the industry and services sector. Wholesale Price Index has registered moderation at (2.33%), while Consumer Price Index has moderated to 5.17% up to March 2015. Structural shifts in inflation are due to lower oil prices, deceleration in agriculture prices & wages and improved household inflation expectations. The trading environment is becoming more challenging as the buoyancy of Indian exports has declined with respect to world growth. Current account deficit (CAD) is expected to decline below 1% of GDP for the FY 2014-15. Foreign exchange reserves increased to \$ 341.14 billion at week ended March 27, 2015. Fiscal deficit is expected to be contained at 4.1% as per the budget estimates. The vision of the new government is pragmatic and of inclusive growth which is apparent from more devolution of tax collections to the states, postponing the achievement of 3% fiscal target to FY 2018 thereby making more space for public investment in the country. Thrust to infrastructure, measures to revive the investment cycle, boost to savings, 'Make in India' initiative, ease of doing business and boosting entrepreneurship are major focus areas of the government.

In India, the formation of a stable government with a strong electoral mandate in May 2014 led to an improvement in market sentiment. There was recovery in key economic parameters during the year. Economic growth improved, inflation moderated, the current account deficit and exchange rates remained stable and interest rates came down during the year. The corporate investment cycle continued to remain subdued; the focus remained on working towards cash flow generation from existing projects and addressing profitability and liquidity challenges in the corporate and SME sectors. The government has taken several steps to improve the operating environment and also announced several reforms. These measures are expected to positively influence economic conditions going forward.

OPPORTUNITIES

Reports from the World Bank indicate that Non Banking Financial Institutions act as critical pillars contributing to macroeconomic stability and sustained economic growth and prosperity, due to their ability to finance firms and individuals at a reasonable cost, reduce volatility by providing multiple sources to finance and park funds and enable creation of a competitive environment characterized by a diverse array of products. This has been proven time and again in developed markets. Non-Banking Finance Companies (NBFCs) continue to play a critical role in making financial Services accessible to a wider set of India's population and are emerging as strong intermediaries in the retail finance space. Going forward, one should expect NBFCs to further strengthen their presence in retail finance and grow at a reasonably healthy pace.

THREATS

The biggest challenge before NBFCs is that they are facing stiff competition from banks and financial institutions, due to their ability to raise low cost funds which enables them to provide funds at much cheaper rate. More stringent capital adequacy norms have been
